Yesterday before noon she went to the drug store of August Hottendorf, No. 927 Central avenue, and bought two and a half ounces of paris-green. She was told that the article was poisonous, and that the amount she had in her possession was more than sufficient to destroy two scores or more of grown persons. She told the druggist that she wanted to use the article to destroy vermin, which were infesting her rooms.

When she returned home, she went to the hydrant in the yard, and, filling a glass with water, poured some of parisgreen into it. She was about to swallow it, when Mrs. Schaeller, who had a sus-picion of what she was about, knocked the poisonous substance from her hands. The would-be suicide then went to her room, but was followed by Mrs. Schaeller, who made every effort to prevent the woman from repeating her attempt, Mrs. Brown, however, found a second

opportunity, and succeeded in swallow-ing a latal dose of the poison. Her ac-tions after this aroused suspicion, and Dr. Albers was called in. He felt the woman's pulse, and had a conversation with her; but not discovering any signs the effects of the poison, nor thinking

that there was danger, he left.

Later on, Doctors Richardson and Amick were called in. They adminstered the proper antidotes, but in spite of their combined skul taey could not

At the meeting of the Aldermanic Board, last night, an ordinance from the Board of Public Works to appropriate \$26,294 55 for Water-works purposes was read. This aroused the suspicion of Mr. Dicks, who made a long and violent attack on the Board of Public Works. It was not pointed in its charges, but was a general complaint that the Board of Aldermen does not know what this money is appropriated for. He did not want to sit here like a blockhead or a lamb, but he wanted to know whether the money is spent in a proper manner. The City Solicitor was called in to say whether the Board of Public Works was obliged to send in an itemized account. The Solicitor said the Board ought to

indicate the specific purpose for which the money was to be expended. Upon this Mr. D.cks made another speech. At its conclusion Mr. Winkier said Mr. Dicks ought to make definite charges, if he had any, against the Board, otherwise his speech was mere
